Brand Name	Sengled
MSRP Price (USD)	59.99
Part Number	C01-A66NAE26W
UPC or EAN No.	840696100109
Category	Speakers
New or Existing	New
Color Options	White

Product Description

Tagline	The World's First LED light with Stereo JBL® Speakers
Description	Pulse Solo is the world's first LED light with speakers in one bulb. Pulse Solo combines the energy efficiency of a dimmable LED light with the high-quality audio of a JBL Bluetooth speaker. Simply twist Pulse Solo into any standard light socket, and adjust both lighting and sound from any Bluetooth enabled iOS or Android device. Experience the soaring highs and the rich stereo sound of JBL combined with warm, dimmable lighting, without the fuss of speaker wires, power cords, or an independent remote control. Our intuitive iOS and Android App offers seamless control of both light and sound while listening to your favorite streamed music or media, offering you the ability to customize your light and music to suit any mood.
Key Features	- Easy to install - no speaker wires, remote control or power cords. - Energy-efficient LED light high-quality JBL audio - 1.07" High-Fidelity loudspeaker with surround sound effect, performs as a - Left-Right stereo. - Android/iOS App offers seamless control of both light and sound (Compatibility: Requires Android 4.3 or later versions, also the devices support Bluetooth 4.0) *Pulse Solo is a standalone speaker and does not link or connect with other products (other Pulse Solos, Pulse Amp, or Pulse bulbs). It only operates by itself.*
What's in the Box?	1 Pulse Solo LED Speaker Bulb , User Guide, Warranty Card

Product Specifications & Warranty
